* [redacted] Comment. Previous reports indicated that most of the numerous shipments of weapons for the Volkspolizei, observed since early August 1952, have been dispatched to VF units which are activated in the Prora-Higgesin-Pasewalk-Prenzlau area. The other cadre divisions did not receive shipments of arms directly. All the artillery pieces and mortars which were not been shipped to the northern area, are believed to have been sent to the kasernierte Volkspolizei Dienststelle ordnance depot at Bobriluck. A further distribution from this installation is anticipated.
